

## Item Code: SMTFLM 8 mil Smart Film Matte

Our 100% PVC “Smart Film” is flexible and durable. Superior tear resistance and flexibility make this film ideal for banner roll-up stands. The microporous coating accepts heavy ink giving it the ability to reproduce photo quality images. Use with dye or pigment aqueous inks. Requires no lamination unless higher protection is needed.

- Water resistant with dye & pigment inks
- Excellent color gamut
- Rapid drying times
- Extremely tear resistant
- Low glare matte finish

### Applications

- Backlit Banners
- Indoor/Outdoor Banner
- Photo Reproduction

### Physical Specifications

Base Weight: Grams/m2	160
Caliper (mil)	8
Storage	Indoor, 1 yr. between 50-80°
Life Expectancy	Indoor 6 mo./outdoor 3 mo.

This product has been tested with Que Media, Millennium laminates. Pressure sensitive laminates provide the most aggressive bond and are recommended for use with this product. Lamination will help to extend the life of your print by reducing the rate of fade and protect against abrasion. Life extension varies due to climate and environment conditions.
