

Item Code: ESV 15 Mil Matte High Density Scrim Vinyl

This reinforced PVC scrim has a polyester layer for additional tensile strength making it extremely durable. The smooth, high density matte coating creates vivid colors. The best of both, strength meets beauty.

- Water resistant with dye & pigment inks
- Can be hemmed or grommited
- High tensile strength & durability
- No glare, high density matte finish

Applications

- Indoor/Outdoor Banner
- Trade Show Graphics
- Photo Reproduction

Physical Specifications

Base Weight: Grams/m2	490
Caliper (mil)	15

Life Expectancy	Indoor 6 mo./outdoor 3 mo.

This product has been tested with Que Media, Millennium laminates. Pressure sensitive laminates provide the most aggressive bond and are recommended for use with this product. Lamination will help to extend the life of your print by reducing the rate of fade and protect against abrasion. Life extension varies due to climate and environment conditions.
