

Item Code: EWRMVAD 6 Mil Elite Matte Vinyl w/Adhesive

Our highest quality, Elite matte vinyl is made from calendered PVC. With a high density, microporus coating, the image quality produced stands alone and creates a highly water resistant finish. Can be laminated right to the edges for increased durability. Use with dye or pigment inkjet inks. White permanent adhesive with paper packing.

- Highly water resistant
- Use with dye & pigment inks
- Non-glare matte finish
- High definition image printing

Applications

- Window Graphics
- Flexible or Mounted Signage
- Labels

Physical Specifications

Base Weight: Grams/m2	100
Caliper (mil)	6
Storage	Indoor, 1 yr. between 50-80°
Life Expectancy	Indoor 12 mo./outdoor 6 mo.

This product has been tested with Que Media, Millennium laminates. Pressure sensitive laminates provide the most aggressive bond and are recommended for use with this product. Lamination will help to extend the life of your print by reducing the rate of fade and protect against abrasion. Life extension varies due to climate and environment conditions.
