

Specialty Items

Que Media offers a wide variety of color laser printable solutions for your POP, shelf marking, labeling, and specialty needs.

Que's Hercules  material is made of tearproof waterproof, durable PET (Polyethylene).

Que's economical material, Hero is a combination of paper/PET/paper. It has many of the same qualities as Hercules at a lower cost.

Que's materials are compatible with most laser printers. With the various toners and feeding mechanisms on the market today, we recommend consulting your technical guide regarding heavy stocks and fuser temperature. We may also recommend testing your choice of media to ensure compatibility.
